

## **CONDITIONALS.**

### **Zero (obvious) – S.Present X S.Present.**

If you fly, you get more flight hours

### **First Conditional (two actions linked ) – S. Present + Future / Modals.**

If it rains, they will close the airport

Might

May

Can

### **Second Conditional ( Unreal at the moment but possible to happen ) – S. Past + Future / Modals.**

If I were the pilot, I would discontinue the approach

### **Third Conditional ( Real but impossible to come back – Regret! ) – Past Perf. + Would + Have + Past Participle.**

If they had alternated, they wouldn't 't have overrun the runway
